

Notice of termination of patent data provision via physical media

Dear customers,

We would like to express our greatest appreciation for your kind subscription of our “standardized JPO data and JPO-format data” products.

We are pleased to announce you that Japio is going to release a batch downloading service for providing patent information products such as standardized JPO data and JPO-format data via the Japan Platform for Patent Information (J-PlatPat), which will be launched on March 23, 2015.

Since we will have this new convenient data provision method, we are going to terminate our current services in which those patent information data is provided on physical media on March 20, 2015. Your kind understanding will be greatly appreciated.

If you have any questions on this matter, please feel free to contact us.
